To,
National Security Division,
Islamabad.

Sub: Request for Clarification and Acknowledgement for Pre-bid Meeting Discussion.

Ref: In the pre-bid meeting held at your good office, the following points were discussed.

Respected Sir,

1. Monochrome Photocopier

- **Input Capacity**

The specification currently states: 2 × 520 sheets (1,140 sheets) + 100 sheets bypass with trolley. There is typo error in calculation, as 2 × 520 sheets is equal to 1,040 sheets. Furthermore, the paper grammage is not mentioned in these specifications. Our machine has an input capacity of 1,200 sheets with 64 g/m² paper. During the meeting, it was confirmed from your side that this is not a major difference. The equivalent specification discussed was: 2 × 500 sheets (approximately 1,000 sheets) + 100 sheets bypass with trolley.

This would allow equivalent machines from multiple manufacturers to participate without compromising the functional requirement.

- **Gradation Scale / Grayscale**

The specification currently mentions “Gradation Scale: 512 MB.” Since grayscale is not measured in MB, it will be considered as 256 Grayscale Levels. This is a technically appropriate and generic way of specifying image gradation capability.

- **Document Feeder– DADF / RADF**

The requirement for “DADF” was discussed, and both DADF and RADF provide automatic duplex document feeding functionality. Both terminologies are the same in terms of the required functionality.

2. Color Photocopier

- **Simplex Input Speed**

Black-and-white: Scan up to 80 ipm – 8.5 × 11 in./A4 (210 × 297 mm)

Color: Scan up to 80 ipm – 8.5 × 11 in./A4 (210 × 297 mm)

This simplex speed is met by our photocopier; however, the difference is in the duplex scanning speed which is minor and can be ignored.

- **Connectivity**

During the pre-bid meeting for clarification regarding its requirement. Bluetooth and Wi-Fi should be made optional features rather than mandatory requirements.

We therefore respectfully request your good office to kindly acknowledge and clarify the above points discussed during the pre-bid meeting.

Yours sincerely,

Raheel Ahmed Siddiqui
