Subject: Queries Regarding RFP – Procurement of MS Exchange Server Subscription Edition (SE) Licenses & User CALs (Tender #03/26-27)

Dear Sir,

With reference to the bidding document for *Procurement of MS Exchange Server Subscription Edition (SE) Licenses & User CALs – Tender #03/26-27*, we respectfully seek clarification on the following technical points to ensure our bid submission is fully compliant with SECP requirements:

 Technical Queries

1. Please clarify if **Microsoft Windows Server licenses** or **Office 365 Purchase Orders (POs)** can be submitted as reference for past performance, or if it is mandatory to provide **Exchange Server-specific POs** only.
2. Kindly confirm whether **hybrid Exchange deployments (on-prem + cloud)** are acceptable under this tender, or if the requirement is strictly for **on-prem subscription edition**.
3. Please clarify the **minimum version** of Exchange Server SE licenses required (e.g., Exchange Server 2019 SE or later).

We request your guidance on the above points to ensure our proposal is aligned with SECP's expectations and PPRA rules.

Thank you for your kind attention.

Sincerely,

Arwentech (Pvt.) Ltd.
