

M. Shafiq Ahmad & Co.

GOVT. CONTRACTOR & GENERAL ORDER SUPPLIERS

Ref: _____

Date: 7 September, 2026

To,

Divisional Assistant Signal & Telecom Engineer-I,

Pakistan Railways, Quetta.

SUBJECT: REQUEST FOR CLARIFICATION / DELETION OF CONDITION EE-05 & TENDER AMENDMENTS

Respected Sir,

With reference to the subject tender, it is stated that our firm M/s M. SHAFIQ AHMED & CO holds PEC License No. 15935 in Category C-4.

PEC Codes Required in Tender: CE-10, EE-4, EE-5, EE-07 & EE-08

In this regard, it is respectfully submitted that PEC code EE-05 relates to High Voltage (HV) electrical installations / transmission works and is not applicable to low-voltage Signal & Telecommunication scope of works. Our existing license already covers all relevant Electrical, Telecommunication, and Signal codes required for execution of this project. Therefore, it is requested that the requirement of code EE-05 may kindly be deleted.

Furthermore, there is a discrepancy regarding the bid submission deadline. The tender document states that e-bids must be submitted through EPADS v2.0 on or before Monday, September 14, 2026, at 12:00 PM, whereas the EPADS portal displays the closing time as September 21, 2026, at 12:00 PM. Kindly clarify the exact closing date and time to avoid confusion among bidders.

Additionally, the tender specifies a completion period of 27 days. Considering that the project site is located in a mountainous area, ground excavation and execution timelines are heavily dependent on subsurface soil conditions, rock strata, and difficult terrain. We request you to kindly re-evaluate and extend the time limit to ensure smooth and quality execution of work.

We shall be highly grateful for your favorable consideration in this regard.

Thanking you.

M. SHAFIQ AHMED & CO
