Dear Sir/Madam,

With reference to PESCO Tender No. MM-09 for the supply of Dropout Cutouts (28,125 Nos.), we would like to request your kind consideration for revising the tender requirements regarding the lot size and delivery schedule.

The quantity of 28,125 Nos. in a single lot is not practically feasible to manufacture and supply within the specified requirements. The manufacturing of Dropout Cutouts involves a fully manual manufacturing and casting process, which requires considerable time and resources. In addition, there are also challenges related to the import of required raw materials/components, which may affect the production and delivery timeline.

In view of the above, we respectfully request that the total quantity be divided into smaller lots, with a maximum quantity of 6,000 Nos. per lot, in line with the practice followed by LESCO and FESCO (Tender Notice attached).

We also request that the delivery period be kept open for 180 days, allowing sufficient time for procurement/import of materials, manufacturing, casting, testing, and final supply while maintaining the required quality standards.

We therefore request PESCO to kindly consider the following:

Maximum Lot Size: 6,000 Nos. per lot

Total Quantity: 28,125 Nos.

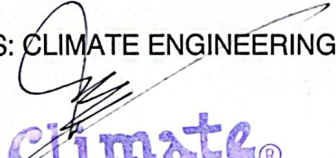

Delivery Schedule: Open delivery period of 180 days

Reason: Manual manufacturing and casting process, along with material import lead time.

We shall highly appreciate your kind consideration and necessary amendment in the tender conditions.

Best Regards,

M/S: CLIMATE ENGINEERING COMPANY

Climate®
Engineering Co.
