

Ref-no: glpl/36/paa/sukkur/2026

14th July, 2026

To: Divisional Engineer (ES E&M),
Civil Aviation Training Institute (CATI), Pakistan Airports Authority, Hyderabad.

Subject: Request for Extension of Time – Tender ID: P51533 (HVAC & Water Facilities at Sukkur Airport)

Dear Sir,

We are actively preparing our proposal for the upcoming bidding process regarding the air conditioning and drinking water facilities at Sukkur Airport.

Upon a thorough review of the corrigendum parameters and technical specifications on the EPADS portal, our engineering team has noted that designing a highly efficient system suitable for Sukkur's intense climate requires additional time.

Sourcing specific equipment components and securing accurate manufacturer quotes cannot be finalized properly before the upcoming July 15 deadline.

To ensure we submit a highly competitive, fully compliant, and technically sound proposal that meets the high standards of the Pakistan Airports Authority, we respectfully request you to kindly grant an extension to the bid submission due date by at least 7 days.

Your understanding and favorable consideration on the EPADS portal will be highly appreciated.

Yours sincerely,
Abdul Ali
